

The Student Profile Report

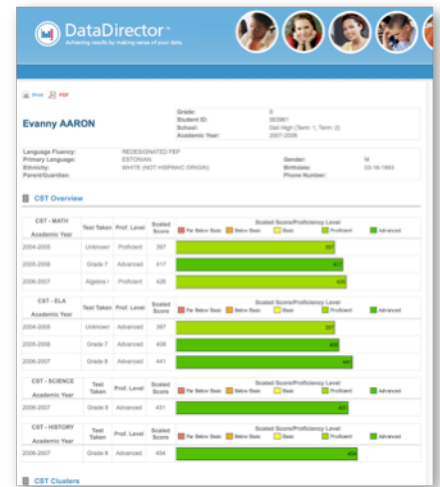

What is it?

Allows instant access to the student “digital Cumulative Record” for any student connected to you simply by clicking on the student name.

Where do I find It?

- Login to *DataDirector*™
- Click the Student Tab and Click the GO button
- Select any student in the list by clicking their name
- A new window will open with the student’s profile

Why would I use it?

Great for Parent-Teacher-Student conferences, Student Study Teams, IEP Meetings, or anytime you need longitudinal information on a student.

ADD TO IT! Need more data?

- Add more years of data to the report by checking the boxes next to the roster year.
- Deselect the check box to make the data disappear from view.

EXTEND IT! Need an entire class set of Student Profiles?

1. Login to *DataDirector*™
2. Click the Reports Tab and scroll to the Pre-Built Reports
3. Click the Student Profile in the report list and follow the prompts!

SHARE IT! Need strategies for sharing this data?

- Ask teachers or administrators to identify a student they are concerned about, print the Student Profile for that student and bring it to the next staff meeting to discuss.
- Identify a successful student, print the Student Profile for that student and bring it to the next staff meeting to discuss.
- Isolate one section on the Student Profile, such as the Cluster/Strand information. Expand all years of cluster data by clicking the year check boxes. Using the data, identify specific areas of increase and decrease in achievement. Discuss.

The Multiple Assessment Listing

What is it?

Allows instant access to multiple state assessments, demographics, and even benchmarks for a group of students.

Where do I find It?

- Login to *DataDirector*™.
- Click the Reports Tab and scroll down to the Pre-Built reports section.
- Click on the “Multiple Assessment Listing” link.

Why would I use it?

Great for comparing multiple measures for one class at a time.

ADD TO IT! Need a quick contact list?

- Click on the Add Demographics button and add in student contact information like parent name, address, and phone number.

EXTEND IT! Need to include assessment data?

1. Click on “Modify this Report” in the left navigation bar.
2. Click the button that says, “Add Assessments.”
3. Select the assessments that you would like added.

SHARE IT! Need strategies for sharing this data?

- Ask teachers or administrators to view multiple subjects for the state assessments data for a given year. Identify students who perform well or poorly on all subjects, and others who have a great difference between scores of different subjects.
- In the demographic filter, select one subgroup and look at multiple assessments for that subgroup.
- Use the “Add courses” button to view only students enrolled in a specific course. Evaluate the scores of students involved in special classes.
- “Add Show Averages” to view average scores by class, school, and district.
