Debbie:

Fieldturf will be doing a warranty replacement of the fields at Morse, Mira Mesa and San Diego HS. Construction is slated for this summer as these fields are rapidly deteriorating so Fieldturf will do the replacement during the summer so they will be ready to go when football practice is slated to begin in August.

Loren,
This seriously impacts many community groups so I will need to be updated with timelines please.

Your email makes me wonder if there's other schools? Please advise me of any sites that will be down please.

FYI,

Flavio, we need to notify Debbie as well in reference to the field being replaced. It probably will impact our renters.

Harry

My name is Loren Chico and I am a Civil Engineer with SDUSD. I am working in conjunction with our preferred contractor, FieldTurf, to arrange to have a no-cost warranty replacement of the existing synthetic turf football field at Morse HS. I would request for you to review the exhibits attached, which depict the existing football field along with your AD. The carpet this field was made with in 2009 was a defective carpet and has deteriorated to the point where it needs to be replaced. This is a no-cost repair on the part of the manufacturer and we'd like to begin the replacement of the field immediately after the school year ends, so we can have the field operational by the time football season practice begins.

Please discuss the exhibit with your AD. If there are any changes you'd like to request, please let us know. The installer has expressed a willingness to allow some changes to the field within reason and if there is anything you want changed on the field and it can be done by the manufacturer, they are willing to work with the Principals and the ADs to give you a good product. Please get back to me NLT this week so we can direct FieldTurf to make these changes and they can then fabricate the carpet on time to install it right after the school year is out. If you have any questions, please feel free to contact me so we can discuss. Once again, have a great day!

Respectfully,

Loren E. Chico, PE, CPSWQ

Hi Loren:

Please find attached the submittal for the field replacement at Morse HS. Will need a formal approval to proceed.
