Hi Elmy,
That is perfect because I got a call from Mrs. Mask stating that she wanted to keep Pablo after school for incomplete homework assignments but she couldn't because of the timing of transportation. She seemed a little frustrated with Pablo and his mother; unfortunately Pablo isn't like the rest of our OVHS students. Can someone please make sure that Pablo gets to do unfinished homework during this time.

Thank You,

Subject: PABLO SILVA TRANSPORTATION

Hello Everyone,

FYI:
Jorge B. from the transportation department came into the office to inform us that Pablo Silva will be picked up about 25 minutes tardy some of the days of the week. It seems that there is an issue with the bus getting into the home area, therefore, he has to take the student but already has a route that will make him pick up the student late. If any questions you may contact Cesar Vega at the Transportation Dept. Have a great weekend.

Mrs. Mayela,
If she would like a transportation chart she would have to request one from transportation, I have nothing to do with his pickup or drop off time. I hope you understand that I have over 1600 students and I support as best I can. My obligation was to enroll Pablo, conduct the home visit, set up transportation, and provide uniforms and supplies. Mrs. Mask now needs to first of all empathize with the child and come up with ideas that will engage him in class. He needs to be motivated to do his work and he does need extra support from his teacher and staff. I really wish I can do all that but that is not my role Mrs. Mayela, maybe you can speak to Mrs. Mask or assist her with Pablo.

Thank You,

Veronica Medina

Veronica- it would be nice if we could give Ms. Mask a schedule that has set times and days so she can be fully aware and thus make the accommodations when necessary. Thank you for your support regarding this matter.
