RE: Iftin Charter School and Proposition Z Funds

Dear Iftin Governing Board and Mr. Yacub:

As the charter granting authority of Iftin Charter School, the District has grave concerns regarding the recent allegations and claims regarding Iftin's operations. Currently, Iftin Charter School is not in good standing due to numerous and significant concerns regarding the school's governance and operations, including but not limited to (1) harassment of staff and students, 2) discrimination of students based on race and/or disability, 3) failure to provide services to special education students, 4) retaliation against staff, and (3) improper hiring practices. Consequently, the District is placing your facility project funded through Proposition Z on hold until further notice.

Respectfully,

Lee Dulgeroff  
Chief Facilities Planning and Construction Officer
