This email reminded me that our Association has endorsed Bonnie Dumanis four times in the last eleven years. Join your colleagues who believe that it is the right thing to do again.

She has welcomed us back when we have left the office and wanted to return from the City Attorney's Office or private practice. She has challenged the bench on our behalf when convinced by one of us that a Judge went to far in a series of rulings no matter how revered and respected the judge or the media scrutiny, she stood with us.

She stood with us in every contract negotiation we have had and pulled us across the finish line in ways that are seldom acknowledged. The people at the table will tell you...Bonnie made a difference.

She managed a budget during two recessions without laying off a single attorney.

Visit our website deputydistrictattorneysfordumanis.com and see the office's past, present and future leaders who all believe that for many different reasons Bonnie is worthy of our support again.

Stand with us and show Bonnie that you have her back.

Thanks
Matthew Greco
