Re: La Costa Canyon High School
Synthetic Turf Field and Track Replacement

Doug:

We have reviewed the CMAS pricing proposal from FieldTurf dated March 17, 2015 for the proposed improvements at La Costa Canyon High School that includes the Synthetic Turf Field Replacement, underlayment improvements and Track Replacement. We recommend approval of the proposal amount and award of the contract to FieldTurf.

The total proposal amount of \$853,532 for the work is approximately \$145,000 below our estimate for the work assuming a **discounted cost proposal from Field Turf due to warranty replacement**; and approximately \$345,000 below the anticipated open market price. As you know, competitive proposals were received several years ago through CMAS last year for the synthetic turf field replacement at Torrey Pines High School from three vendors. That contract was awarded to Fieldturf on the basis of their proposal and it appears they have continued their aggressive pricing to retain all facilities in the District. **Award of this agreement will standardize the same synthetic turf field surfacing and supplemental pad system at all of the District's high schools.**

Please do not hesitate to contact me should you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Robert Harding", written over a white background.

BOARD MEETING DATE: April 2, 2015

PREPARED BY: Christina M. Bennett, Director of Purchasing/Risk Mgt
Eric R. Dill, Associate Superintendent/Business

SUBMITTED BY: Rick Schmitt
Superintendent

SUBJECT: AWARD / RATIFICATION OF CONTRACTS

EXECUTIVE SUMMARY

On March 17, 2015 district staff received a proposal from FieldTurf USA, Inc. for the La Costa Canyon High School synthetic turf field replacement, underlayment improvements and track replacement B2015-06.

The proposal was compliant with all requirements of the California Multiple Award Schedules (CMAS) bid requirements established by Department of General Services (DGS) for CMAS contract 4-06-78-0031A.

CMAS contracts are established for information technology and non-information technology products and services that have been competitively assessed, negotiated, or bid primarily by the federal General Services Administration (GSA), but not exclusively. This CMAS contract is based on GSA contract GS-07F-9631S.

The contracts are structured to comply with California procurement codes, guidelines, and policies, and provide for the highest level of contractual protection.

The offer was evaluated by district staff, as well as the district's consultant on the project D.A. Hogan.

The total proposal amount of \$853,532.00 for the work is approximately \$145,000.00 below the original estimate for the work assuming a discounted cost proposal from FieldTurf based on a warranty replacement of the existing turf, and is approximately \$345,000.00 below what the district had anticipated based on an open market price.

Award of this contract will standardize the same synthetic turf field surfacing and supplemental pad system at all of the district's high schools.

RECOMMENDATION:

Approve entering into a contract with FieldTurf USA, Inc., for synthetic turf field replacement, underlayment improvements and track replacement B2015-06, during the period April 3, 2015 through project completion, for an amount not to exceed \$853,532.00, and authorize Christina M. Bennett or Eric R. Dill to execute all pertinent documents.

FUNDING SOURCE:

School Facilities Fund 35-00, and designate this as a priority project that will be paid from savings from the San Dieguito High School Academy new construction project 50/68346-00-003.
