

July 14, 2015

I [redacted] (Stepmother) became aware of an inappropriate conversation on Facebook Messenger between my stepson + and his Math support teacher [redacted]

On the evening of July 13, 2015 I with the assist of [redacted] mother, accessed our son's facebook messages. The conversation that I read was concerning to say the least. This teacher was asking specific details about my son's habits + living area. He was attempting to lure my son with things like dinner a mile, take him to a game to "be alone".

The entire context of the conversation has been submitted to the school's Superintendent, [redacted] (father) and I discussed this with our son this morning. Our son voiced his concerns + being uncomfortable. However, he kept responding to this teacher (in my husband's quiet + I's opinions) because our son is ~~quite~~ withdrawn and was impressionable since he has such a hard time →

fitting in at school. [redacted] father  
and I had contact with [redacted] mother  
& stepfather & we are aware that  
they decided to respond to the teacher  
using [redacted] account on Facebook.  
We [redacted] parents are  
very concerned for the safety of our  
child & now our home, since  
this man was asking specific  
location & directions to our residence.

[redacted]

[redacted]

- Following this conversation the teacher  
deleted his facebook account -

[redacted]

A fellow student [redacted] also was befriended by  
this teacher on facebook
